The Invisible Hand of Leadership[®] is a unique program for leaders at all levels that will help you grow in your current role in your organization as well as your personal and family life.

As leaders take a visible role in developing others, they instill an invisible impact to future leaders, some of whom they may never meet. Our program helps leaders develop their authentic leadership voice, maximize their potential, and achieve their goals.

Throughout the interactive session you will participate in hands-on activities, learning how to give effective feedback and create an environment for your people to thrive.
